

IMPROVE YOUR LIFESTYLE **STAY ACTIVE**

Maintaining independence is important for everyone, but especially for seniors. However, accidents can happen, and every 11 seconds, an older adult is treated in the emergency room for a fall*.

*according to the National Council on Aging

Passive Fall Detection Wherever You Are

Stay Active is a passive fall detection solution that allows seniors to go about their lives uninhibited while still monitoring for any changes that may indicate that they may need help. The solution utilizes cutting-edge monitoring and fall detection technology. Small battery powered smart sensors, professionally installed throughout the home, monitor activity and detect falls. This proprietary system is connected to a medical command center.

Stay Safe in Every Environment

With Stay Active, seniors can experience the true freedom of living independently. Whether at-home, in a retirement community, or care home, Stay Active's fall detection technology will keep them safe when they need it the most.

How can we ensure that
seniors continue to
thrive independently while
keeping them **safe**?
